Putting warmth at the heart of the home

# BOILER STOVES – THE BEST OF BOTH WORLDS

*Arada boiler stoves are proven performers. They use the latest technologies and draw on our 50 years of manufacturing experience to provide a reliable and economic way to heat your home. At the same time, you have the heart-warming glow of a real fire. Plus, a seven-year guarantee comes as standard.*

## Keep the temperature steady

Every Arada boiler stove has a thermostat. It's not just a safety feature, it also keeps your radiators at a constant temperature, so you stay comfortable. The feedback from the thermostat contributes to high fuel efficiency and reduced fuel consumption – making an Arada model cheaper to run than other boiler stoves.

## Works with other heating systems or stands alone

When installed with a thermal store, our boiler stoves can be combined with any other source of heating, from traditional gas and oil systems to the 'greener' ground source heat pumps and solar panels. This is the perfect partnership for complete home heating. Your stove is able to heat up a large amount of water quickly, and the thermal store utilises this heat effectively around the home.

## Faster hot water

We use technology to drive meaningful improvements. For example, our designers modelled water flow characteristics to devise a much faster system for heating water. So an Arada stove heats your hot water faster.

Model shown: Ecoboiler 16 HE | 13.6kW

*Providing more than just superior performance, the Ecoboiler HE (high efficiency) has a large fire door glass and soft curved lines, offering an attractive focal point for any living area. On top of its stylish appearance, discreet thermostatic control and three bar operating pressure, its ability to produce 50% more heat to water than other boiler stoves ensures the Ecoboiler is the ultimate heating companion.*

## Features

- Preheated airwash system for clean glass
- Stainless steel ash pan and baffle
- Discreetly positioned thermostatic control fitted as standard
- 'Easy Boost' system
- Large, externally controlled riddling grate
- Flue Exhaust Diversion system to improve performance
- Primary and secondary burn to improve efficiency
- Suitable for installation in an indirect/ open-vented central heating system
- Up to 3 bar operating pressure
- Top or rear flue outlet
- Direct air supply compatible
- Height adjusting legs as standard

Ecoboiler 12 HE | 12.1kW **A**

**Available with 9, 12.1, 13.6, 18 or 22.5kW outputs**

---

*Optional extras: Floor fixing kit / Safety handle*

---

# Ecoboiler HE Inset

*Our Ecoboiler HE inset range provides high efficiency whilst fitting perfectly into a standard British fireplace opening. Featuring a large curved viewing glass and simple controls, this range will transform any fireplace with its sophisticated style.*

## Features

- Preheated airwash system for clean glass
- Stainless steel ash pan and baffle
- Discreetly positioned thermostatic control fitted as standard
- 'Easy Boost' system
- Large, externally controlled riddling grate
- Fits into standard British fireplace opening
- Flue Exhaust Diversion system to improve performance
- Primary and secondary burn to improve efficiency
- Suitable for installation in an indirect/open-vented central heating system
- Up to 3 bar operating pressure

Ecoboiler 16 HE Inset | 16.1kW **A**

Available with 11.6 and 16.1kW outputs

Optional extra: Safety handle

# Ecoboiler 12 Cassette

*Our multi-fuel cassette boiler offers an alternative to our freestanding models with a wide viewing glass and modern look, combined with the latest in state-of-the-art technology and high performance. This stove is sure to provide an ideal heating solution for your home and hot water.*

## Features

- Preheated airwash system for clean glass
- Stainless steel ash pan and throat plate
- Direct air supply
- Optional choice of trim colour
- Externally controlled riddling grate
- Discreetly positioned thermostatic control fitted as standard
- Radiant heat and natural hot air convection
- Suitable for installation in an indirect/open-vented central heating system
- Up to 3 bar operating pressure

Ecoboiler 12 Cassette | 11.8kW **A**

Optional extras: Optional trim colours

# Ecoboiler Wood

Model shown: Ecoboiler Wood

*Our dedicated wood boiler features one of our biggest viewing glasses, providing an unhindered view of its glowing fire. Featuring a modern design, clean-cut lines and a sleek handle, the wood boiler is certain to become the centre point of any room in an energy-conscious home.*

## Features

- Preheated airwash system for clean glass
- Burns wood only
- Discreetly positioned thermostatic control fitted as standard
- Flue Exhaust Diversion system to improve performance
- Large fire viewing window
- Primary and secondary burn to improve efficiency
- Suitable for installation in an indirect/open-vented or sealed central heating system
- Up to 3 bar operating pressure
- Integral cooling loop
- Sloping 45° 6" flue outlet
- Eligible for 5% VAT
- Direct air supply compatible
- Height adjusting legs as standard

Ecoboiler Wood | 11.8kW **A**

---

*Optional extra:* Log store
