Made by craftsmen in the heart of Great Britain

Carefully blending traditional skills with modern materials and methods Trent Fireplaces manufacture a comprehensive range of carefully crafted products at our workshop in Nottingham.

The fireplace is usually the focal point of any room and at Trent Fireplaces each surround is manufactured individually and therefore given the time and attention to detail that makes all the difference.

At Trent Fireplaces each surround can be tailor-made to your specific size requirements and the designs can be mixed and matched or modified to produce a fire surround to compliment the setting of your choice and to your own taste.

Each fire surround can also be made from the material of your choice, these include several solid timbers and a full range of veneered woods.

Why not order exactly what you’re looking for in the exact colour you want, to the exact size you want!

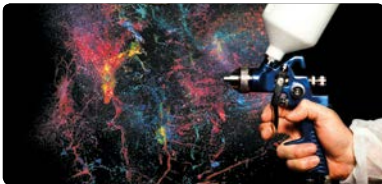

Investing in people and skills

Looking after our environment

Made to Measure

Finished in any colour

Handmade in the UK

EDWARDIAN

All of the Trent Fireplaces range can be any style, any colour & perfectly painted

Think of a colour and it's yours - it really is that simple. The colours shown above and in this brochure are just a tiny sample of the colours available for your new fireplace.

You can choose from any of our standard colours and other options that can be seen at the back of this brochure.

These colours have been carefully chosen to work with a wide range of home decor options, and you can visit one of our many stockists to see and feel the full range of standard finishes for yourself.

Alternatively, if you want something unique to you, just send us an item in your favourite

colour and we will get our paint laboratory to match it for you.

As long as we can scan it, we can match it and your new fireplace will be sprayed the perfect colour for you and your home.

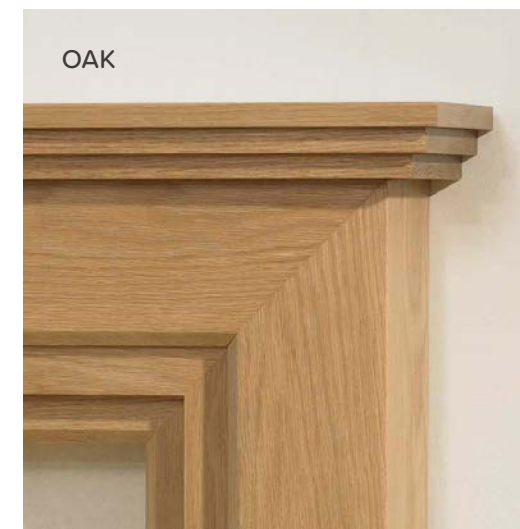

Whatever colour moves you - it's yours.

Left: The Edwardian shown with grey split slate back panel and matching hearth with the Trent Hi Line HE gas fire.

BROOKFIELD

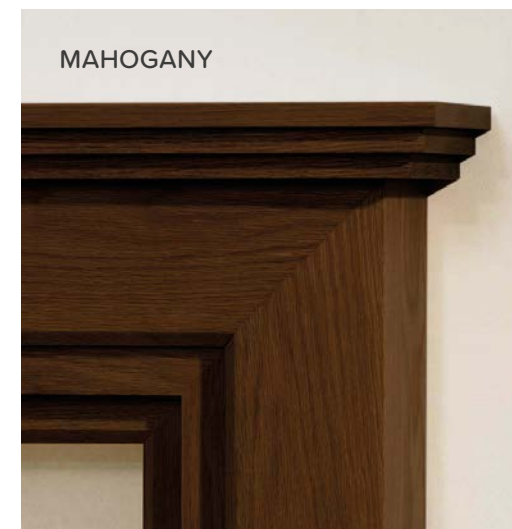

The natural choice... beautiful woods

OAK

Our choice of wood finishes is exceptional, allowing you to match your current home style or to create a whole new look.

There are over 30 wood finishes to choose from - whether you like the more traditional hues of the Mahogany range, or prefer the contemporary tones of Maple and Beech.

MAHOGANY

These finishes are crafted to compliment a wide range of home decor options, and you can visit one of our many stockists to see and feel the full range of standard wood finishes for yourself.

Alternatively, if you want something unique to you, just send us an item in your favourite

WALNUT

colour and we will get our paint laboratory to match it for you. As long as we can scan it, we can match it and your new fireplace will be sprayed the perfect colour for you and your home.

You can see a small sample of these finishes on the chart at the back of this brochure.

Left: The Brookfield shown with the oyster split slate back panel and matching hearth with the Trent HE Superslim gas fire.

Simple changes to suit your decor and style

ORWELL

With very small and simple changes it is possible to create a look as unique as your home. At Trent Fireplaces we love to make the perfect fire surround.

OTHELLO

So if you want to flex your designer muscles please discuss exactly what you want with your Trent retailer and we will make that perfect design, just for you.

The Garcia shown with the flamed granite back panel and matching hearth with the Trent Hi Line HE gas fire with pebble fuel bed, ribbed back & black nickel contemporary trim.

NEWLAND

From our heart to your hearth

Designed & manufactured in Nottingham for over 25 years, we are proud to have a loyal local workforce, often from the same families.

This knowledge and experience within the company, combined with our attention to detail, gives you quality workmanship and a huge range of unique designs to choose from.

Carefully blending traditional skills with modern materials and methods we produce a comprehensive range of products.

The fireplace is usually the focal point of any room and at Trent Fireplaces each surround is manufactured individually and therefore given the time and attention to detail that makes all the difference.

...we LOVE what we do.

Left: The Newland is shown in clear oak with American walnut inlay and the Trent Hi Line slimline gas fire with brick effect back.

BENIDORM

Powered by our people

At Trent Fireplaces we love what we do, and we hope that every fireplace that leaves our workshop reflects a little bit of the love that went into its creation.

We truly are a family business, and our workshop in Nottingham brings together a huge range of skills honed by the workforce who are without doubt our most valuable asset.

Our workshop brings together crafts people of all ages, and across generations of families - all working together to keep traditional skills alive whilst also getting the best from modern equipment and working practices.

This commitment means we can all enjoy what we love to do - design and make beautiful fireplaces.

MODULAR ELECTRIC CHIMNEY BREAST SUITE

Transform your flat wall into a stunning focal point... as easy as 1, 2, 3

Trent fireplaces have created a Unique range of Modular and easy to fit chimney breast suites for their range of electric fires and electric stoves.

They have been designed to offer an easy way of creating the stunning look of a modern electric fire or stove incorporated in to a chimney breast without the hassle of getting builders and plasterers in to create the look.

The easy method of installation means that in most cases the complete Trent chimney breast suite can be installed in less than a day rather than the usual 2-3 days by several different tradesmen.

The concept Trent Fireplaces have created with these suites is unique in offering a 'hook on' type of installation that offers the freedom and flexibility to have these stunning suites fitted on any type of flat wall instantly creating an impressive focal point to any room.

They are bespoke suites that are individually made and manufactured to your own personal specification and room height size.

The chimney breast suites generally require a minimum gap of 75mm between the top of the breast and the ceiling to allow it to be hooked onto the hidden brackets.

This is an ideal place to have optional uplighters fitted. All the suites can have optional up lights and downlights fitted.

The Modular design may also be further enhanced by adding your own personal touches.

Shown here we have used a brushed steel finish between each section but you can choose any colour, wood grain or other material of your choice... the choice really is yours.

Although made to measure, the Modular Design shown in the image is a standard size of:

Floor base: 1321 mm wide x 330mm deep

Hearth: 1473mm wide x 406mm deep

Height to top of hearth from floor: 305mm

Breast section: 1270mm wide x 356mm deep x Ceiling height dependent.

RUSTIC OAK BEAM ELECTRIC CHAMBER SUITE

Electric stove suites

ORWELL ELECTRIC CHAMBER SUITE

Above: The Orwell Chamber is shown with the grey brick chamber, honed granite hearth and Oakhurst electric stove

Left: Rustic Oak Beam Chamber is shown with the grey waterfall slate chamber, matching grey slate hearth and the ACR Astwood electric stove.

KINGSBURY

A nod to the traditional

Our fireplace surrounds offer a choice of simple, classic designs combined with clean lines and beautiful insets and hearths.

They can be finished in any colour to suit your décor including as shown on the Cairn and the Kingsbury a patina finish which gives an authentic ageing effect.

DORCHESTER

CAIRN

Relax, you're home

There is nothing more cosy than a fireplace. Whether it's snuggling up together to spend time as a family, or settling down alone with a book or a film – a fireplace brings your room to life and turns even the coldest interior into a home.

But a fireplace is about much more than just comfort. It's a beautiful addition to any room, and reflects the personality you build into your interior. It creates a feature that's endlessly engaging, and becomes the focal point of any room.

Whether it's time together as a family, essential time alone or as a couple or socialising with friends, a fireplace will be the heart of your home.

THE ACCONA ELECTRIC SUITE

Add a focal point and feature to any flat wall

ASPIRE ELECTRIC SUITE

Accona:

Floor base:
1117 mm wide x
304-356mm deep

Hearth:
1219mm wide x
356-406mm deep

*Height to top of hearth
from floor: 280mm*

Overall height:
813mm

Aspire:

Hearth:
1346mm wide x
330mm deep x
38mm high

Top:
1283mm wide x
178mm deep

Overall height:
1003mm

Both the Accona and Aspire are made to measure to best suit the space you have

however we have pictured them in their standard sizes.

HIGHLAND

Modern, clean & minimal

CASPIAN

Our modern fireplaces have clean lines, contemporary textures and subtle inlays, as seen with the soft wavy wood featured on the Caspian.

We hope that you will find a design that is right for you, if you do not find exactly what you are looking for, we can work with you and your retailer to discuss your ideas.

Left: The Highland surround has been finished in mineral grey, shown with a black granite back panel and hearth with Trent Hi Line HE gas fire.

CHELSEA

Left: The Chelsea surround with black granite back panel and hearth with the Trent Hi Line HE gas fire.

Right: The Chelsea surround with the king polished cast iron back with granite hearth with the King gas fire.

Contemporary designs for both modern and traditional interiors

CHELSEA

We specialise in both modern and contemporary designs, with a choice of colours and finishes to suit any scheme.

Many of our designs are at home equally within a modern or traditional setting and with the ability to finish the fire surround in any colour of paint or stained wood the options really are endless.

LIVY

Quality never goes out of style

The workmanship and care that goes into each fireplace ensures that the quality you expect is always met.

Always available in any size or any colour. You can also choose your own design with the possibility of adding design features from different styles to create your own bespoke fireplace.

Left: The Livy shown in natural oak with the matching Livy arched marble back panel and hearth with the Trent Hi Line HE gas fire.

WORCESTER

SLEAFORD

INTERCEPTOR

Interceptor Chimney Breast Suite

The Interceptor is one of the new Trent Fireplaces full chimney breast suites.

The concept that Trent Fireplaces have created with these new suites is unique in offering a 'hook on' type of installation that offers the freedom and flexibility to have these beautiful suites fitted on to any type of flat wall instantly creating a stunning focal point to any room.

They have been designed to offer an easy way of creating the stunning look of a modern electric fire incorporated in a chimney breast without the hassle of getting builders and plasterers in to create the look.

They are bespoke suites that are individually made and manufactured to your own specific requirements so they can be finished in any colour or combination of colours.

They also have the option of having downlights fitted that work independently of the fire so whether the fire is on or off you can always use the lighting of the Interceptor Suite to give you a subtle and unique lighting effect.

*Although made to measure, the suite as shown is a standard size of:
Floor base: 1422 mm wide x 343mm deep
Hearth : 1575mm wide x 420mm deep
Height to top of hearth: 369mm
Breast section: 1118mm wide x 356mm deep x Ceiling height dependent.*

PEMDEAN

Cool and contemporary

CARLISLE

The Pemdean is a contemporary twist on a more traditional design. With the introduction of a textured wavy panel we have mixed the best of both design worlds. The Carlisle is a truly timeless design given a modern twist in the washed oak finish.

SANDFORD

Traditional techniques for modern designs

MODENA

Left: Sandford shown with a grey finished inlay to perfectly blend with the Spanish grey limestone back panel and hearth and the Trent Hi Line HE gas fire with ribbed back.

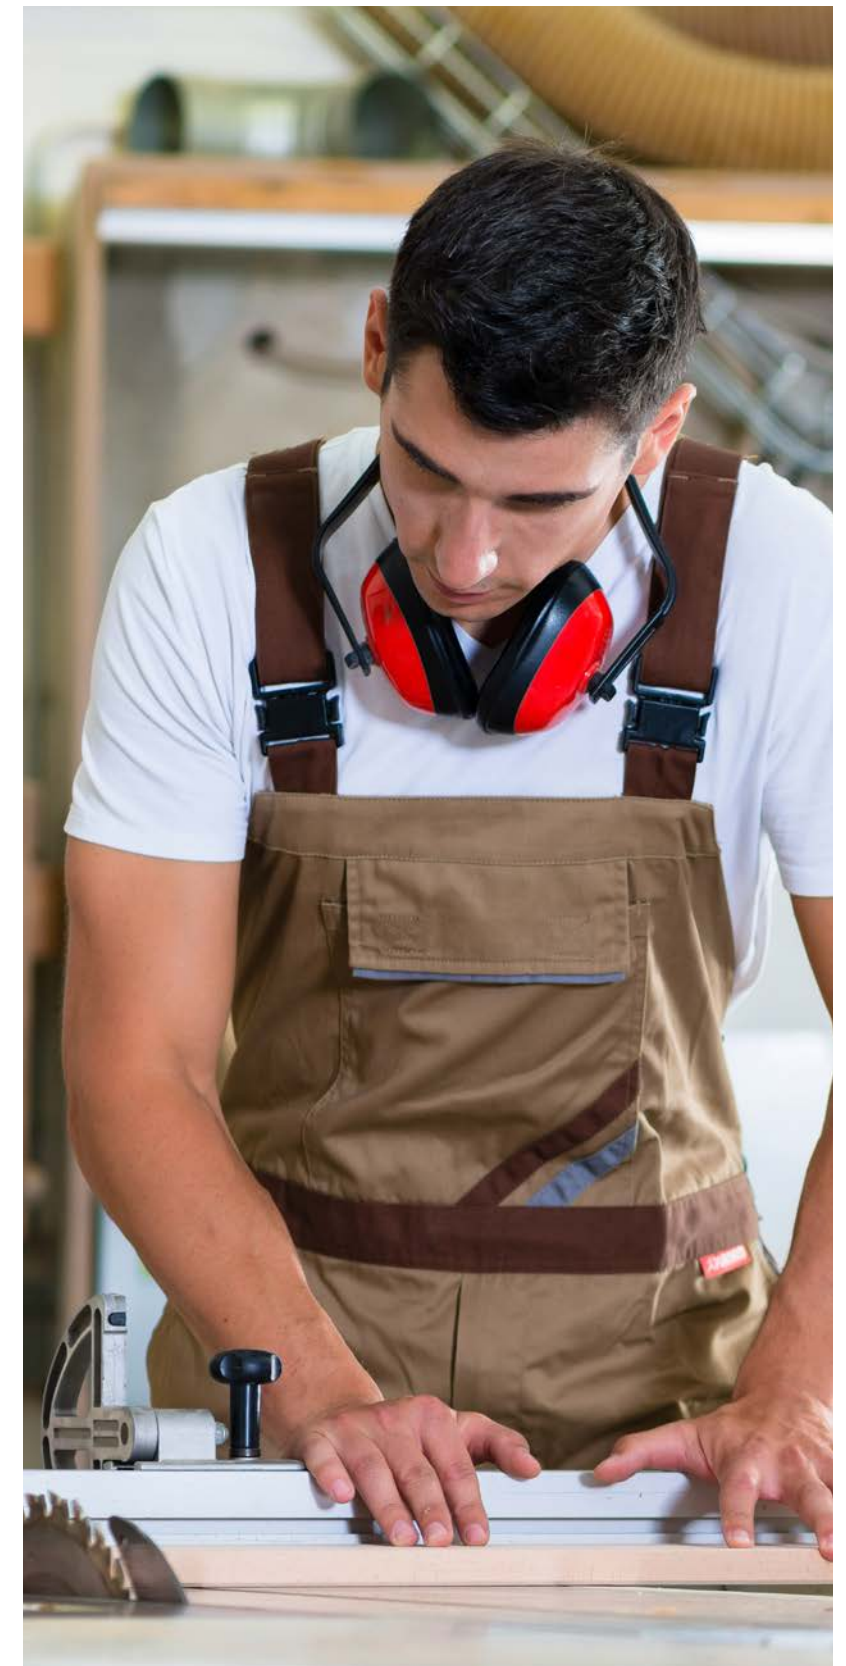

LINEAR

Handmade in Nottingham

From our Nottingham workshops we use a base of stockists who can offer a wealth of experience and expertise.

Each stockist can discuss with you your exact requirements and pass these details on to ourselves who in turn, and working closely with your stockist, will manufacture the fireplace of your choice.

IGNITE CHIMNEY BREAST SUITE

Ignite your imagination

IGNITE ELECTRIC FIRE SUITE

Although made to measure the standard sizes as pictured are:

*Floor base:
1588 mm wide x
305mm deep*

*Hearth:
1651mm wide x
356mm deep*

*Height to top of
hearth from floor:
254mm*

*Overall height of
fire only suite:
864mm*

*Breast section:
1588mm wide x
210mm deep x
Ceiling height
dependent.*

The New Ignite Suite is not only truly stunning but also truly versatile. The suite can be purchased as a fire suite only as shown above or complete with a chimney breast addition offering a perfect home for both your fire and your television.

The chimney breast addition is made to your specific ceiling height and can be either plain or have an aperture ready to fit your television. You just tell us the size of your television and we will make the chimney breast to suit and fit your television perfectly,

then you simply attach your television to the wall using the bracket that is recommended for your make and model of television.

The chimney breast suites generally require a minimum gap of 75mm between the top of the breast and the ceiling to allow it to be hooked onto the hidden brackets.

This is an ideal place to have optional uplighters fitted. This Ignite Suite can have optional uplights, downlights or backlights fitted, the choice is yours.

NEO CHIMNEY BREAST ELECTRIC STOVE SUITE

New concepts for stunning focal points

LUNA ELECTRIC SUITE

Both the Luna and the Neo can be fitted onto a flat wall to give you a beautiful focal point. The new concept Neo Stove Suite has been specially designed to show off the award winning Neo Electric Stove.

The Stove features glass sides to give a better all round view of the stunning flame effect. With this in mind the suite has

been designed with a tapered chamber to emphasize this beautiful and well thought out feature.

A Mantel shelf has been added before the chimney breast suite extends up to the ceiling and of course all of this can be made to measure and to your perfect choice of colour and finish.

Standard sizes as pictured are:

Luna:
Hearth:
1372mm wide x
381mm deep x
38mm high
Top:
1257mm wide x
241mm deep
Overall height:
883mm

Neo Chimney Breast Suite
Hearth:
1372mm wide x
457mm deep x
51mm high
Lower body section:
1321mm wide x
228mm deep x
1194mm high

Mid shelf:
1372mm wide x
153mm deep x
51mm high
Top section:
1321mm wide x
228mm deep x
Ceiling height dependent.

BELGRAVIA

Classic design in any colour

Using the latest paint-mixing practises and colour matching technology, your fireplace can truly reflect your style. Any colour, any size any design.

Send us a sample of a colour and we will match to it. Simple.

Left: The Belgravia is shown with the Spanish grey limestone back panel and hearth with a stepped design in the back panel and the Trent Hi Line HE gas fire

CALGARY

Four twists on one eye catching design

With just subtle design changes to the shape and dimensions, we are able to offer a bespoke surround service. These small changes make all the difference when choosing your perfect style.

BOWDEN

BANFF

KIRK

Every Trent Fireplace is hand crafted here in our workshop in Nottingham, England – and that is something that our Directors Jo and Chris decided was really important when they set up the company 25 years ago.

It's an important commitment to the generations of crafts people who work here as part of the Trent Fireplaces family, and in many cases as relatives passing their skills on to members of their own families.

Hand crafted fireplaces

It's an important commitment to our customers to deliver the highest quality fireplaces, carefully built by real people with all the love and care they deserve.

It's an important commitment to keep the crafts and skills that go into every fireplace alive. That means working in traditional ways, but also bringing modern techniques and benefits where appropriate.

It's an important commitment to keeping production here in Nottingham, fighting against the short term benefits that have seen so much manufacturing move away from the UK.

And finally, it's an important commitment to our world – keeping our workshop as clean and sustainable as possible, and only using woods from certified sustainable sources.

HORSFORD

Focus on wood

CANTI

Each fire surround can be made from the material of your choice, including several solid timbers & a full range of veneered woods.

Ranging from a deep mahogany to a subtle pale oak. There is a wood to match your mood as well as your room.

Left: The Horsford is shown with bianca beige back panel and hearth and the 22" Kepler electric fire.

LARZAC ELECTRIC SUITE

The new age of electric suites

SANTORINI ELECTRIC SUITE

Larzac:

Floor base:
1321 mm wide x
330 deep

Hearth:
1473mm wide x
406mm deep

*Height to top
of hearth from floor:*
305mm

*Top: 1473mm wide x
349mm deep*

Overall height:
787mm

Santorini:

Floor base:
1270 mm wide x
279-356mm deep

Hearth:
1372mm wide x
330-406mm deep

*Height to top
of hearth from floor:*
213mm

*Top: 1321mm wide x
279-356mm deep*

Overall height:
927mm

Whether you prefer the clean straight lines of the Larzac Suite or the sweeping soft curves of the Santorini Suite these new electric fireplaces will add a wonderful focal point to any room. Both of these designs can be fitted to a flat wall to instantly create a stunning

feature and both the Larzac and the Santorini can be fitted with downlights and can be made to measure to best suit the space you have however we have pictured them in their standard sizes.

BENIDORM ARCH WITH DOWNLIGHTS

Simply elegant

BENIDORM ARCH

MILLBROOK ARCH

Our fireplaces are available with beautiful curves and sweeping arches, the Benidorm Arch and Millbrook Arch above feature an oak top shelf, drawing attention to their individual subtle changes in design.

MAYFAIR

Calming tones to warm the heart

With a choice of over 30 wood finishes you can guarantee a perfect combination to complete your interior style.

The traditional designs also look great painted, blending classic design with modern interiors.

MILLBROOK

Clean lines and crisp edges

These modern designs showcase the options that are available within each design, enabling you to create a bespoke design to match your interior. The simple addition of an oak top to the Benidorm and Millbrook makes a striking feature.

BENIDORM

MILLBROOK

MELBOURNE

Timeless style that never ages

CAVENDISH

GRAMPIAN

Our large range of traditional fireplaces can be made in any size, so you can choose the perfect size of surround you need as well as the perfect colour.

These timeless designs also work really well when finished in a paint colour mixing beautiful classic designs and contemporary colours.

Left: The Melbourne is shown with the stepped melbourne marble back and hearth with the Trent Hi Line HE gas fire.

SEVILLE

Classic style from traditional lines

From the bold proportions of the Seville to the small but perfect proportions of the 42" Siena at Trent Fireplaces we put as much time effort and love into every fireplace we make.

LOUTH

42" SIENA

HOWDEN WITH DOWNLIGHTS

Simply natural beauty

Wood is beautiful - and the bold contemporary lines of these fire surrounds are designed to let that beauty shine through.

The perfect compliment to any home, these fireplaces bring the warmth of natural wood to a modern interior, and clean, bold contemporary lines to a traditional one.

Left: The Howden shown in natural oak with downlights and the Trent Hi Line HE gas fire.

Colour swatches and dimensions

All colours shown should be used as a GUIDE only. All of our trusted retailers have a full range of colour guide samples in their showroom for you to see and touch to ensure you are completely happy with your choice.

However we offer a full colour matching service so please just ask in store and let us know what colour of wood or paint finish is required, submit a sample and we'll match it.

Disclaimer: Due to the nature of many of the materials we use such as wood, a variation in shade and pattern is usual. Many of the surrounds featured in this brochure are manufactured using M.D.F. veneered with wood, while others are manufactured from solid timber. Some of the motifs are manufactured from resin. Many items featured are individually hand made and therefore slight variations in size are to be expected. With regard to tiles, shading and crazing are inherent characteristics of glazed and ceramic tiles and should not been seen as a fault. With regard to cast iron and brass products due to the casting process all sizes quoted are approximate. Polished cast iron and brass products are not recommended for solid fuel fires as some discoloration may occur. Occasionally this process of discoloration, which does not effect the serviceability of the product, may also occur with high output gas fires, therefore if discoloration will cause distress it is strongly recommended that black products be selected. All materials featured are reproduced as accurately as possible to the original products within the constraints of the photographic and printing processes. We recommend the installation of all products by a professional fireplace installer and cannot be held responsible for any damage arising from incorrect or unqualified installation. Trent Fireplaces have taken great care in the preparation of the information contained in this brochure, but accept no liability for any loss or damage arising directly or indirectly from the use of, or reliance upon, any such information (except for liability for negligence resulting in personal injury which if proven is not excluded) Nothing in this brochure shall amount to any express or implied representation, warranty or other assurance. Trent Fireplaces reserve the right to change the description and specification of it's Fire Surrounds and other products without prior notification. Consumer rights are not affected.
